🚨Crypto got screwed tonight.🚨

There's a partisan disagreement on spending, so Dems objected to ALL further amendments.

That means NO vote on Wyden-Lummis to lessen the damage this bill will do to crypto, & NO vote on the Cruz amd. to repeal the new crypto rules altogether.

Ted Cruz @tedcruz · 37m

The result?

The Senate's going to inflict billions of dollars of damage on the growing & exciting crypto industry & drive much of it overseas.

There aren't 5 Senators who understand much of anything about crypto.

What the Senate said tonight: Let's tax the hell out of something we know nothing about, so we can pass a giant bill we haven't read, and spend the American people's money on stuff we can't afford

It's reckless & harmful

entirely. Further, we are not in a position to turn over the universe of information we possess for Defendant to review. Although we are aware that we possess some information that the defense may view as supportive of arguments that law enforcement authorized defendants (including Defendant) to enter the restricted grounds, e.g., images of officers hugging or fist-bumping rioters, posing for photos with rioters, and moving bike racks, we are not in a position to state whether we have identified all such information. Pursuant to *Brady* and its progeny, we are required to make available the voluminous data that may contain any similar information for Defendant to review.

They aren't overwhelmed with just Covid patients, there are a little under 9,000 rooms in the state, but only 28 beds remain for ICU out of about 1,300 rooms... The ICUs are always full though, that's how they make money folks...

There are about 1,200 open rooms total right now.

Again...

This Symposium is like being in a class in College that you hated...

There has to be a simpler and more dumbed down, Layman's terms way of explaining it.. Right now, you've lost 99% of those watching, they are tuning out already at it's not even been a couple hours..

We have to stop saying "unapproved" and "experimental" as the FDA is going to fast track approval and the argument is gone. A rushed vaccine with minimal/limited trial periods and no long term safety data is a better argument.

Though we hear about them a lot and need more research, they are uncommon and usually asymptomatic or mild. Continue to use multiple mitigations but the greatest risk remains to the unvaccinated. We need to focus on getting more people immunized, not obsessing over breakthroughs

Replying to @angie rasmussen

Vaccines are very good, but some places are already reporting 10%+ breakthrough cases among hospitalized patients (Louisiana, St Louis Missouri).

Without real-time data, how do we know severe breakthrough cases are rare at the moment?

Dr. Walensky has repeatedly said that breakthrough infections are extremely rare. But the agency does not tally national figures on breakthrough infections that don't result in hospitalization or death, and, in any event, its numbers lag by a few weeks. The exact incidence of these infections, as well as their outcomes, is unknown.

God Appears to Solomon Again

(1 Kings 9.1-9)

11 After King Solomon had finished
the Temple and the palace, successfully
completing all his plans for them, 12 the
LORD appeared to him at night. He said
to him, "I have heard your prayer, and
I accept this Temple as the place where
sacrifices are to be offered to me.
13 Whenever I hold back the rain or send
locusts to eat up the crops or send an
epidemic on my people, 14 if they pray
to me and repent and turn away from the
evil they have been doing, then I will
hear them in heaven, forgive their sins,
and make their land prosperous again
15 I will watch over this Temple and be
ready to hear all the prayers that are
offered here, 16 because I have chosen it
and consecrated it as the place where I
will be worshiped forever. I will watch
over it and protect it for all time. 17 If
you serve me faithfully as your father
David did, obeying my laws and doing

Over the next few weeks, look for media to run fake news polls that state Americans really want vaccine passports and mandates.

These propaganda polls will be used by the Biden regime to try and force mandates - once the rushed FDA approval happens.

Arkansas residents, thought you should know your Governor and ADH are deceiving you. ICU's are not overrun, they are understaffed. I know of 2 ICU wings that are not even opened at 2 different hospitals. Asa said we had 8 ICU beds open state wide, that is a LIE.

Yes COVID is bad but the news is being presented as a worst case scenario, the hospitals are having a staffing problem.

Replying to
What specific ICU wings are you talking about? Are they new wings that are being opened due to COVID? And honestly, doesn't matter if the beds are empty or not, if they aren't staffed, it does you no good to be in an ICU bed! The IV pumps, vents etc., need someone to work them.

1

Scott Bales @duckmansasylum · 47m
Then you bring nurses in like other states have done. Nurses have left to work other states where they're being paid more. I will not discuss which Hospitals they are, but I know of two personally. That is from an administrator that knows.

When are some of you going to realize it's not about wearing the damn mask, it's about control and compliance.. First the mask, then forced jabs, then forced papers..

This is how it starts you puppets....

AltheaJoy @asyo...

Replying to @RealMattCouch

I'm not really sure why the masks are so bad. My kids have never thought twice about wearing them. it isn't a big deal if it can help protect someone more vulnerable, and help slow the spread so we don't have yet another variant. why is it so bad? Genuinely wondering

It's struck me that most people live in a constant state of fear.

People are afraid to even speak. Let alone do.

I encourage you all to be at least 10% more courageous. It would cause a major shift.

Bullies thrive when decent people lack courage.

It seems that modern people, especially in the West, are SO far removed from true, life endangering threats (famine, drought, war, pestilence, disasters) that minor threats get severely overblown.

We are in the 'weak men create bad times' phase

Let's change that 👊🏾

I wonder what the FBI's to do list looks like on a Friday the 13th??

1) Interrogate Grandma's that took selfies at the Capitol near the Route 66 Cracker Barrel

2) Add The Flu to Missing Persons list

3) Don't Ever Talk About Seth Rich

4) Get Judge to sign off on more FISA's

Arkansas residents, thought you should know your Governor and ADH are deceiving you. ICU's are not overrun, they are understaffed. I know of 2 ICU wings that are not even opened at 2 different hospitals. Asa said we had 8 ICU beds open state wide, that is a LIE.

It doesn't matter what your thoughts are, the people voted in representation and that representation voted to ban masks.

One liberal judge doesn't get to out number and overrule an elected governing body. This ends now in Arkansas, and that's why I'm fighting for our rights!

This is the first time since the founding of our Nation that we have no President. As allies are murdered and raped, as our embassy falls, as Americans are in grave danger Biden is on vacation and his Press Secretary took the week off.

Tell me that's not impeachable.

No, the United States should not welcome an unchecked flood of young fighting age Afghan men into our country. This should not even need to be said. It would be a grotesque and suicidal policy. Which is why I'm sure it will be put in place.

The events we are seeing now are sadly the proof that no amount of American military force would ever deliver a stable, united, secure Afghanistan.

What is happening now could just as easily have happened five years ago — or fifteen years in the future.

It is not the severity of punishment that deters a man from crime; it's the CERTAINTY of it.

The reason Trump was able to broker a peace deal and begin pulling troops from Afghanistan is because the Taliban knew that if they acted out, they would immediately be put in check.

This is shameful, pathetic, ignorant, and not even logical rhetoric being pushed by teachers and the local media. Children don't get it, don't spread it, and if they do which is rare easily beat it.. Sickening virtue signaling nonsense!

KNWA & FOX24 - Northwest Arkansas & River Valley News
3h ·

"I would encourage you to drive one day and sit in a grade school primary parking lot and watch those little ones walk in all excited about school and think, 'Could those children in about a week be very very sick because I didn't get a shot?'" said Alma teacher Lisa Neihouse.

This is shameful, pathetic, ignorant, and not even logical rhetoric being pushed by teachers and the local media. Children don't get it, don't spread it, and if they do which is rare easily beat it.. Sickening virtue signaling nonsense!
